

Nickname: rolex datejust wimbledon

GPTchat phrase: rolex datejust 36 wimbledon dial

Year: 2021

Info:

The Rolex Datejust 36 Wimbledon dial is a variation of the Rolex Datejust 36 watch model, which is one of Rolex's most popular and iconic models. The watch features a 36mm case and is made of high-quality materials such as stainless steel, yellow gold, or white gold.

The Wimbledon dial is a unique feature of this particular variation of the Datejust 36 watch. The dial has a green and purple color scheme, which is reminiscent of the colors of the Wimbledon tennis tournament. The hour markers are made of 18k white gold and are set with diamonds, adding a touch of luxury to the watch.

The Rolex Datejust 36 with the Wimbledon dial is powered by Rolex's caliber 3235 movement, which is a self-winding mechanical movement that provides accurate timekeeping and a power reserve of approximately 70 hours. The watch is also water-resistant up to 100 meters, making it suitable for everyday wear and occasional water activities.
